

# MedLink

Integrated Workflow Management for Medication Reconciliation

## XchangePoint's acute care platform provides integrated workflow management of pharmacy-led medication reconciliation

### Medication History

- ▶ Vast data coverage of medication fill history and improved sig frequency rates
- ▶ Intuitive user interface with clean look and feel

### MedIndex, an individualized medication adherence scorecard

- ▶ Comprehensive scorecard with six months of medication fill and refill history, along with key adherence metrics
- ▶ Visual alerts for nonadherence risks, including, gaps in therapy, proportion of days covered (PDC) and high risk medications in the elderly (HRM)

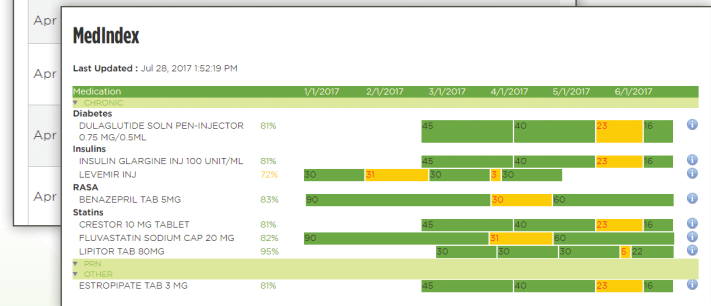

### RxGuide, customized discharge medication instructions

- ▶ Patient education tool simplifies the process of understanding how to safely and accurately take discharge medications
- ▶ Materials written on a fifth to eighth grade reading level, and available in more than 20 languages

### XCP Analyze

- ▶ Business intelligence and operational reporting provides strategic data to drive results within the health system
